

## Sangama Overview

Sangama is a kannada magazine published two or three times every year by Vidyaranya Kannada Kuta, Illinois, U.S.A. for its members. This magazine has a collection of articles, short stories, poems, children section which include stories, jokes and views by kids. The magazine has information and reports on the activities and programs of our organization too.

This magazine is now available on the web too. With the release of our Ugadi Issue on April 24, 1999, we have made efforts to release the Web version of 'Sangama'. We hope to provide some good reading material to Kannadigas, especially to those living outside India.
